

Day 2.

Recap — May 13, 2026

TEAM Hippolyte · Julien · Laurent · Juliette · Barbara · Brice
SOURCE Whiteboard photos · Granola notes
NOTE Only what was said or written during the sprint

North Star

90% retention of target barns at 6 months

Primary metric · decided collectively during the sprint

Metric	Target
Self-onboarding	5 target barns that self-onboard
Activation rate	% who complete onboarding
Active weekly GMV	To be defined
Blocking bugs	Resolution < 2 days
Non-blocking bugs	Resolution < 1 week

Geographic Strategy

- 100% United States for 3 years
 - Ocala + Wellington: initial critical mass
 - Target: ready for the winter show season by January 2027
 - 3 simultaneous clusters during the show season
 - Organic acquisition: competitors leave with HopOn and spread across 40 states
-

Clifford Strengths — Team

Person	Top 5 Clifford
Barbara	Restorative · Achiever · Responsibility · Learner · Focus
Speaker A	Learner · Relator · Analytical · Achiever · Ideation 3 green (thinking) · 1 blue · 1 purple
Speaker B	Strategic · Includer · Activator · Arranger · Responsibility 95% director · 89% empathy

Profile ownership exercise (drawing each other's strengths) → deferred to next full team meeting.

Personas

Professionals

- **Pro Rider — Equestrian**
Valorization (buy/sell) · Performance (earnings) · Independent (pay per ride)
- **Trainers**
1 location → Owner / Employee · Multi-location
- **Barn staff**
Barn managers · Grooms · Secretaries / Admin

Amateurs

- **Non-owner**
Leisure (occasional, regular) · Amateur performance
- **Own + 1 horse**
Amateur competition · Amateur non-competition
- **Parents**
Payers / bookers for minor children

Owner & External Providers

- **Owner**
Barn owner · Pays a boarding/program for their horse
 - **External providers**
Farriers (priority) · Emergency vets · Physios · Dentists · Braiders
-

Pain Points — Professional Profiles

Persona	Identified pains
Owner (Profitability)	Team productivity · time savings · mental load · tracking/to-do · client transparency · Payments ☐
Coach	Schedule optimization · arrival times · wrong location · constant messages
Rider	Mental fatigue ☐ · at the end of their rope · visibility · unexpected barn work
Barn Manager	ALL → Improv / No plan
Groom	Forgetting things ☐ · feeling watched · overwhelmed · working together
Secretary	Getting the info → having the right tools

Pain Points — Amateur & External

Amateur

Persona	Identified pains
Owner	Arrival availability · care not done · Lack of communication ☐ · horse location · lesson availability · service not done · recurring care reminders
Non-owner	Ease of booking ☐ · cancellation policy · not getting the horse they want
Parents	Info before / during / after · payment link

External Providers

Provider	Identified pains
Farrier	Next stop planning · 1 horse → owner · clarity on who · waiting for horse · post-visit report · route optimization
Physio / Dentist	Lost revenue from forgotten appointments · post-visit report · route optimization
Emergency vet	Finding the barn · unnecessary travel · unpaid invoices · Horse info ☐
Braider	Finding new clients · scheduling · payments · preferences · photos · communication

Top pains (written in red on the whiteboard)

- Pro sells more lessons / Amateur books more easily
 - Making sure you get paid for your services
 - Pro/extras don't have exact service info · Amateur doesn't have the result
 - Group services: how to push info to everyone at the barn
 - Clear view without forgetting key events and tasks of the day
 - Managing shows / commitments, schedules, trainer lists
-

Use Cases Framework (A-F)

Every feature evaluated against these 6 use cases

#	Use case
A	Pro sells more lessons · Amateur books more easily
B	Making sure you get paid for your services
C	Pro/extras don't have exact info · Amateur doesn't have the result
D	Group services — how to push info to all barn members
E	Clear view without forgetting key events and tasks of the day
F	Show management (commitments, schedules, lists, trainers)

Roadmap V1 — September 2026

Features decided during the sprint · target date: September 2026

Feature	Notes
Booking — client + pro	Doctolib-style · one-shot pro · lesson card
Employee / client listing	—
Advanced calendar	Custom views by profile
Task management	Assignment + tags
Horse page	Permanent info · feed · planning
Rider homepage	Updates · upcoming events
Pro homepage	Financial dashboard · time · tasks
Access rights admin	—
Payments	Prepayment + Apple Pay + Stripe
US tax management	—
Essential notifications	—
Service requests	"Partners" · \$1 or not
Lesson admin	Lesson card
Internal dashboard	HopOn team tracking indicators

Roadmap V2 — December 2026

Feature	Notes
QR Code per box	—
Daily routine guidelines	—
SCRAPPER WEF / Thermal / Hits Ocala	Strategic priority — target 1 circuit
Show map	—
Global barn feed	Private only
Barn mapping	Paddocks, arenas, stalls

Roadmap V3 — 2027

Contracts (boarding / leasing / sale) · Reminders · QuickBooks · Voice reports (self / trainers / extras)

V4+ / Dream

AI coach · Gift card (AB) · Approval for purchase (BC) · Tips · CRM prospect (AB) · Invoice storage (B) · Syndication (BD) · Barn directory (A) · Checklist (EF)

Out of scope for V1-V3 (not "never" — just later)

Marketplace · Horse sales · Half-lease · Airbnb-style boxes · Gamification · Inventory · Prospect CRM · New group training

Permissions — Who Sees What

Two distinct home views drawn on the whiteboard

	Pro / Owner	Groom · Rider · Trainer
Revenue MTD	YES	NO
Lessons MTD	YES	NO
Team overview	YES	NO
Next up (schedule)	YES	YES
My to do	YES	YES
Hop News	YES	YES
Equestrian News	YES	YES

Wireframes — Home screens (whiteboard sketches)

Element	Pro / Owner view	Groom / Rider view
Header	Barn name + icons (R,I,D,Notifs)	Barn name + Groom/Rider/Trainer tags
Finance	Revenue MTD \$3,600 · +18% · 16 recurring payments	—
Schedule	Next up May 13 · alert [A] · event rows	Next up 10h · 12h · 18h · Next due
Stats	12 lessons MTD +3.8% · Team: 42 to do · 6 events	—
Tasks	My to do · View all · checkboxes	My to do 6 today · View all
News	Hop News · Equestrian News	Hop News + write · Equestrian News 3 tiles
Nav	Barn · Calendar · Compass → My Stable	(same)

QR Code — Sprint notes

- External providers invoice via QR scan on each stall box
- Farrier ~\$200/month per horse on average (mentioned during the session)
- Flow: scan → log service → invoice → payment

Open questions (not yet decided)

Does Stripe host the payment or just the record-keeping?

Lightweight account required or anonymous invoicing via QR link?

Does the barn owner need to pre-approve which providers can bill?

Technical Decisions — Locked

Feature	Notes
Booking	Feature #1 — absolute priority
Feed	Private per barn only · no public social feed
WhatsApp	API integration to read messages · don't rebuild it
Shows	V2 · target 1 of the 3 major US circuits (WEF / Thermal / Hits Ocala)
QuickBooks	V3 · not a barrier to entry
US taxes	Handle from V1 via Stripe
Minor restrictions	No direct booking access for under-18s

Internal Tracking Dashboard

- Barn-by-barn adoption tracking
- Barns inactive for 3+ weeks → alert
- User click heatmap
- Basic metrics to identify adoption friction

For Day 3

Complete User Flow per persona

Struggled on the home screen at end of Day 2 → tackle first thing

Paper sketching first

Draw on paper before opening Figma

Wireframes → Figma

Home Pro · Home Groom/Rider · Horse page · Booking · Calendar

5 priority screens

Voted at end of Day 2 → draw these first

Visual permission check

Validate who sees what on every screen drawn

Positioning — To be validated in Day 3

This formulation is an external synthesis (ChatGPT + Claude) based on the sprint outputs. It was not decided collectively during the day. Confirm or reword in Day 3 before drawing screens.

"HopOn is the operating system for high-performance equestrian businesses."

- V1 features cover scheduling, payments, coordination, horse health — an OS, not just an app.
- Leaving HopOn = losing your barn's operational memory.
- "If you leave HopOn, you lose your operational memory." — potential investor line.

Question for Day 3

Does this sentence represent what you want to build? If not, propose an alternative as a group before designing the first screens.
